Norms for Meaningful & Respectful Dialogue

- **Assume Positive Intent**

Everyone is here because they care. Let's start from a place of trust, even if we disagree.

- **Speak Your Truth with Respect**

Share what's on your heart, and do so in a way that invites understanding, not conflict.

- **Be Hard on the Ideas, Soft on the People**

It's okay to challenge concepts—but not each other. Focus on priorities, not personalities.

- **One Voice at a Time**

Listen fully without interrupting. We learn the most when we're not the ones talking.

- **Stay Solution-Oriented**

Voice concerns with the goal of improvement. Help us move the conversation forward, not backwards.

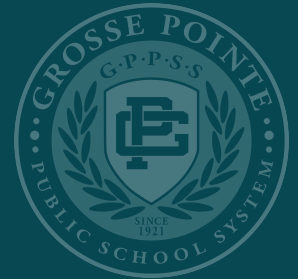

Public Comment 6:30-6:45

We welcome public input tonight. Please keep your comments focused on the remaining mentioned projects that strengthen the bond proposal and what you believe the community values most.

- Limit: **3 minutes per speaker**
- Thank you

Three Minute Timer

Committee Discussion 6:45-7:15

1 Minute Advocacy Segment

Moderator: Dr. Roy Bishop, Jr.

As we move forward with this process, it's important to create space for all voices, including concerns and differing perspectives. This discussion will be moderated by Dr. Roy Bishop, Jr. to ensure all voices are heard respectfully.

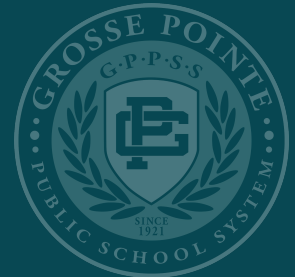

Purpose and Ground Rule: This is your opportunity to share what's on your heart—positively or constructively. We know sometimes in a group this size, participants may feel their concerns haven't been heard yet, and this time is designed to acknowledge just that.

- Each speaker will have up to one minute to express support for a project or share a specific concern about a project or priority.
- Please frame all feedback with the intent to build understanding and improve outcomes. We ask that remarks focus on your perspective and avoid attacking others' ideas.
- This is not a debate, but a dialogue—a chance to elevate what you believe matters, whether that means lifting a project up or rethinking its place in the plan.
- Our shared goal is clarity, collaboration, and community-centered decisions.
